FAR-SIGHTED AND FAIR-MINDED INVESTING IN EMERGING MARKETS

INVESTMENT PHILOSOPHY

The investment team's philosophy stresses the importance of alignment. Emerging markets present a distinctive context in which to operate a business, with constant evolution – and sometimes revolution – in economic, political, regulatory and financial conditions. Investing alongside managers and owners with good reputations who control their own destiny and share our belief in a long-term approach is an important way to align interests.

INVESTMENT APPROACH

The investment team are fundamental, bottom-up investors seeking to create high conviction portfolios of reasonably valued, high-quality companies that are exposed to, or operate in, emerging markets. They ignore the index and focus on finding sustainable businesses which contribute to absolute returns over the long term.
